Executive Risk Leader | Head of Risk Management (CAA Approved)

Seasoned insurance risk professional with 10 years of experience, specialized in Solvency II and capital strategy. Dual-background in Engineering (CentraleSupélec) and Management (ESCP). Proven track record in risk governance for Life Insurance and partnering with Executive Committees to drive informed, data-driven decision-making.

Professional Experience

- 2023 – 2025 **Head of Risk Management, Generali Luxembourg, Luxembourg**
- Spearheading risk management governance, aligning policies, regulatory requirements and corporate goals.
 - Leading risk framework for solvency, liquidity, investments, underwritings, DORA and operational risks.
 - Partnering with senior leadership to drive informed decision-making on capital allocation and strategy.
 - Streamlined procedures with modern tools for risk identification, measurement, mitigation and reporting.
 - Authored the ORSA report and contributed to key regulatory deliverables (SFCR, RSR).
 - Managing regulatory relationships to ensure ongoing compliance with Luxembourg's insurance regulations.
- 2019 – 2023 **Risk Management Analyst, Generali France, Paris**
- Implemented Solvency II data quality framework for the Internal Model and Technical Provisions.
 - Reported monthly on exposure and concentration risk across multiple asset classes.
 - Identified as high-potential talent and selected for the Generali Future Owner Program (INSEAD).
- 2017 – 2018 **Business Consultant, BI Consulting (now Sibylone), Paris**
- Various consulting missions of data management within the banking and insurance industry.
- 2016 – 2017 **Media Watch Officer, French presidential election, Paris**
- Real time political speech verbatims, synopses, analyses and press reviews for the candidate and the team.
- Internships**
- 2015 **Executive Assistant, Quantmetry (now part of Capgemini Invent), Paris**
- Daily support to the funding CEO of a consulting firm in AI, on legal tasks, organisation, sourcing, presales.
- 2014 **Data Analyst, Ubisoft International, Paris**
- Various statistical analyses on in-game data, for demographics, marketing and behavioural studies.
